TEST REPORT

Lab. No. 001
Date: 12.07.2017

To: INTUS DOO

TEST PROBE INFORMATIONS:

Probe:	Microbiological fertilizer - ORGALIFE
Location:	
Contractor of testing:	Intus doo Skopje
Laboratory number of probe:	001
Supplier:	Intus doo Skopje
Date and time of supply:	30.06.2017
End date of testing:	11.07.2017
Hygienic and technical characteristics	Temperature: Residual chlorine: Smell and taste:

MICROBIOLOGICAL ANALYSIS:

Present microorganisms	Results	Measure unit	MinDK**	MaxDK***	Method
Nitrogen fixing	72*10 ⁵	CFU/ml			Pratima <i>et al.</i> Int. J.of Micro. Vo. 2012 (2012).
Cellulolytic bacteria	46*10 ⁵	CFU/ml			Pratima <i>et al.</i> Int. J.of Micro.
Nitrificator bacteria	72*10 ⁵	CFU/ml			Vo. 2012 (2012).
Denitrificator bacteria	22*10 ⁵	CFU/ml			Pratima <i>et al.</i> Int. J.of Micro.
Total number of aerobic, heterotrophic, mesophilic bacteria	142*10 ⁵	CFU/ml			Vo. 2012 (2012).
Total number of yeasts and moulds	16*10 ⁵	CFU/ml			Pratima <i>et al.</i> Int. J.of Micro.

With * are marked accredited methods by IARM; With N.D. no detected bacteria

With ** are marked minimal allowed concentration With *** are marked maximal allowed concentration;

CONCLUSION:

PRESENTED RESULTS ARE ACCORDING TO STATUTE BOOK FOR ALL TYPES OF MICROBIOLOGICAL FERTILIZERS, PROCEDURES AND DOCUMENTS FOR CLASIFICATION OF NEW MICROBIOLOGICAL FERTILIZER, IDENTIFICATION AND THE WAY OF MARKING, PRESENT MICROORGANISMS AND THEIR MINIMAL AND MAXIMAL ALLOWED CONCENTRATIONS.

Head of laboratory:

NOTE

This result refers only for tested probe, and conclusion is not accredited.
The result can be reproduced exclusively as a whole document. It can not be used for advertising purposes.
